STANDARD
TABLE FEATURES

STANDARD TABLE FEATURES

Special-T tables are manufactured from the highest quality products possible, meeting or exceeding ANSI/BIFMA standards.

HPL tabletops feature 1-1/8" thick 45 lb. density particle board core, high-pressure laminate, durable vinyl, wood or urethane edges, and .038 balanced backer sheet on less than 48" tables (.038 phenolic backer equal or greater than 48"). The finished top thickness is 1-1/4".

High-quality high-pressure Standard WilsonArt laminates are available for tops. Premium laminates are available for an additional charge.

TFL tabletops feature 1" low pressure, 45 lb density core, low-pressure laminate on both sides, and matching color vinyl edge.

A wide selection of table edges and edge colors are available. Edge options include durable vinyl, wood, and urethane edges.

Most tops are pre-drilled for easy installation. In addition, all 60" or longer tables sold without a continuous beam base include a steel table support to prevent tops from sagging.

Table legs feature high-quality tubular steel, stainless steel, cast aluminum, or cast iron. All tubular steel bases are available in 20 powder coat finishes at the standard price. Color matching is available; an upcharge may apply. Some bases are also available in polished chrome and stainless steel finishes. Leveling glides are standard for most tables. Tables legs ship knocked down and are easy to assemble.

The standard table height is 29".

Special-T demonstrates its dedication to the future of our environment in its products. Special-T products have passed stringent MAS Certificated Green™ Indoor Air Quality testing and comply with BIFMA X7.1, LEED, CDPH, and SHPS standards*.

*Wood edges are not MAS Certificated Green™
