

DISTANCE by Design

FOR SHARED SPACES

CLEAN, HEALTHY,
SUSTAINABLE WORKING
ENVIRONMENTS

Create a *clean, healthy, and sustainable* working environment for a safe return to work

CORE by Safe-T is designed for employees' safety and peace of mind. It operates as a one-stop resource to create a COVID safe environment for people working in commercial offices, healthcare, assisted living facilities, and educational spaces.

Under CDC guidelines for workplace safety, Safe-T's innovative desking design meets the challenges of air purification, social distancing, and blocking of toxic exhalations. CORE is ideal for Hoteling and Hot-Desking.

The solutions for the COVID pandemic must be permanent to avoid toxicity, the spread of illnesses, and loss of productivity.

CORE meets **3** primary challenges of post-COVID work environments

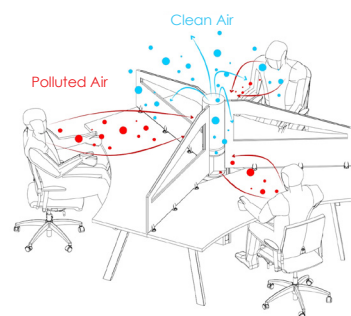

1 Social Distancing

- 3 separate workstations
- Each workstation spans 120°
- Each employee is positioned 6' apart

2 Protective Barriers

- Funnel exhalations directly into the air purifier
- Extend 30" above worksurface
- Made with cleanable anti-microbial PET material

3 Air Purification

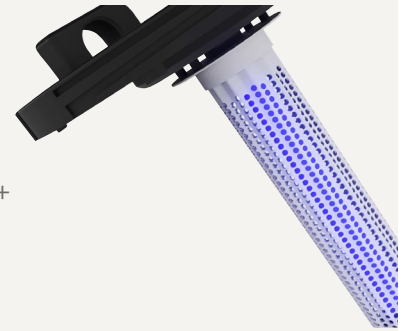

- Premium commercial grade robust technology captures and kills 99.998% of harmful microscopic particles
- Filter, sterilize, and re-energize large volumes of air
- Whisper quiet about as loud as a moderate rain shower
- 360° air intake draws air in from all sides
- Touchless control helps prevent cross-contamination
- The digital display shows levels of air quality, particulate count, filters, and UV-light status

Robust Technologies and Premium construction

Kill Chamber

- 1 TiO₂ Catalyst
- 2 Germicidal UV-C+
- 3 Hydroxyl Radical

Absorbs & Captures

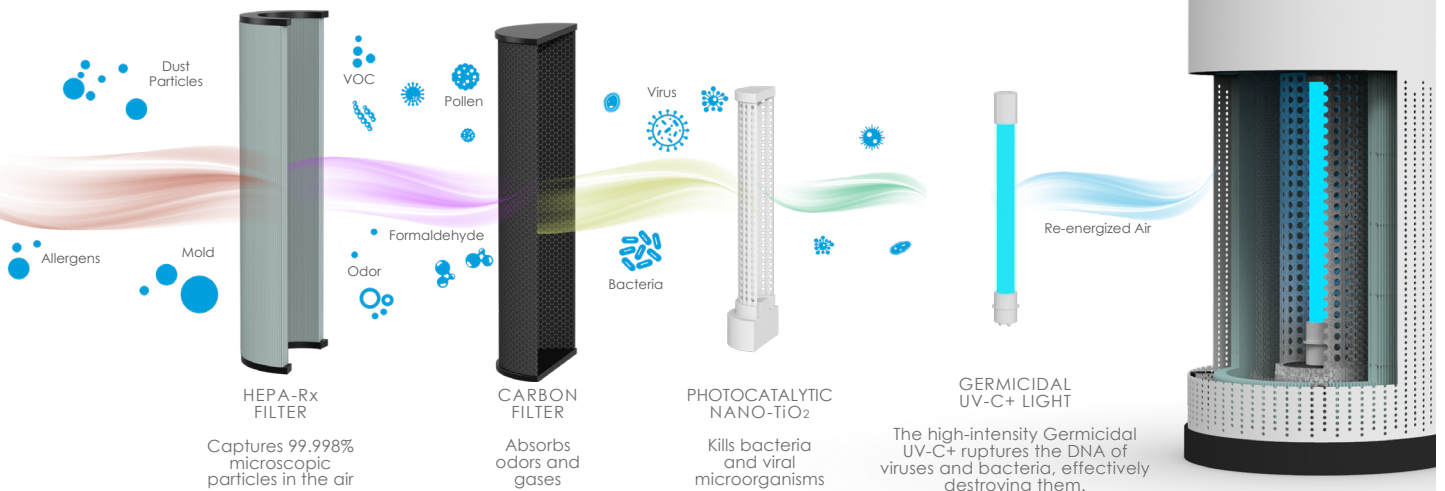

- Cleaning chemicals
- Third-hand smoke
- Perfumes
- Noxious odors

HEPA-Rx Filter

6 Stages of Air Purification

CORE OPTIONS

HEIGHT ADJUSTABLE | STATIONARY | SCREENS | MONITOR ARMS | ACCESSORIES

HEIGHT ADJUSTABLE

Each height-adjustable desk is controlled independently with a programmable up/down switch

STATIONARY

METAL AND TABLETOP FINISHES

OTHER OPTIONS

- Ample connections for electric and USB outlets
- Single or dual adjustable monitor arms
- Dozens of laminate and wood veneer options
- Several metal finishes

Work safer and breathe easier with the protection, performance, and peace of mind built into the design of CORE by Safe-T.
