RSXO

Instructions

1. Slide the connected half of the base into the opening spot of the other half.
2. Attach the mounting plates using the provided hardware, with the #3 Phillips Bit connected to the adapter and the impact drill.
3. Lay table top upside down on cardboard or a carpeted surface.
4. Position an assembled base onto the table top and align holes in mounting plates with predrilled holes in the table top.
5. Using 3/8" hex bit and impact drill, install 24 screws from hardware pack through the base mounting plates and into pre-drilled holes in table top.
6. Flip table upright and adjust leveling glides if necessary. Enjoy your table!
