

ASSEMBLY STEPS

START BOLTS BY HAND TO PREVENT CROSS THREADING

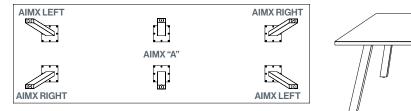

1. Lay the table top (**A**) upside down on a cardboard piece or carpeted surface.

2. Align the Left (**B**) and Right (**D**) AIM legs with the pre-drilled holes so the legs are angled towards the corners of the tabletop.

3. Align the AIM "A" (**C**) legs with the pre-drilled holes so the legs are angled towards the edges of the tabletop.

4. Fasten AIM legs to the tabletop using wood screws (E).

5. Have two people hold onto the edges of the tabletop and carefully turn the table over to the upright position.
