

BENCHING SYSTEMS
to Support the Way You Work

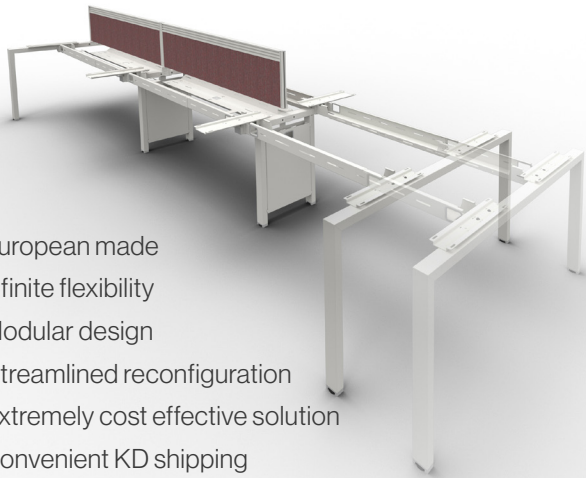

Benching systems are the top choice for affordable, modern, high-density office spaces

▼ **CORE Benching Key Benefits**

OPTIMIZED FOOTPRINT ACROSS MULTIPLE WORKSTATIONS

- European made
- Infinite flexibility
- Modular design
- Streamlined reconfiguration
- Extremely cost effective solution
- Convenient KD shipping

With decades of expertise in contract tables, Special-T has developed a modular benching system that is easily customizable and adaptable to meet specific project needs and budgets.

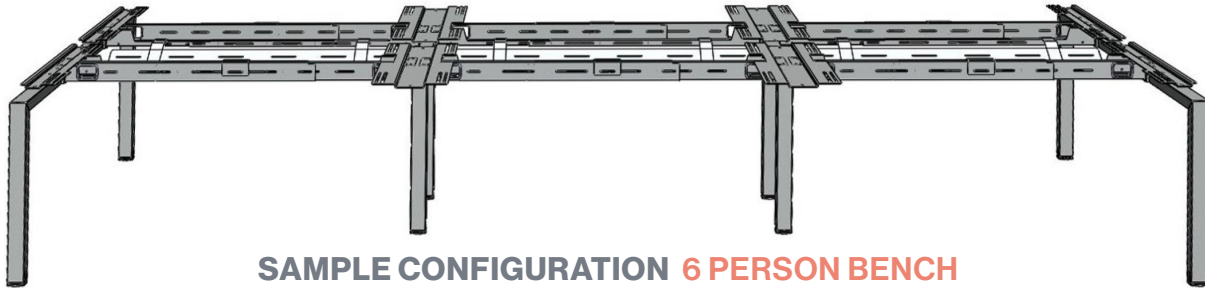

Our versatile platforms feature telescopic beams for flexibility, multi-rail systems for stability, and minimalist understructures for cost-effective solutions. A wide range of accessories, including cable management and optional fabric-covered dividing screens, further enhances functionality.

Customize your workspace with optional monitor arms, cable cut-outs, and power distribution.
