AIM EZ DESKING SYSTEM

AIM EZ Desking is stylish, adaptable, and affordable solution perfect for growing businesses. It presents a blend of style and functionality, ease of specification, and value. Accommodate your growth and maximize the person-per-room ratio with the system's add-on capabilities.

Keep every employee safe with integrated Safe-T Air Purification that captures and kills 99.99% of viruses, bacteria, and other air pollutants. The patent-pending air purification system assures individualized exhalant capture from 360-degree intake at face level. As the air passes through the 6 stages of air purification, at the final stage, negatively charged ions make the air feel more pure, clean, and energized and help combat common fatigue.

Numerous configuration options, various electrical and wire management solutions, dozens of base and top color choices offer freedom to customize AIM EZ Desking to adapt to your space and fit your needs.
