

DON'T BE TARIFF-IED, **GET YOUR ORDERS IN TODAY!**

THERE IS NO TARIFF FOR SPECIAL-T AS OF NOW

Things are changing quickly, so get your orders in now before Trump gets any more ideas. As of March 2025, President Donald Trump's administration has implemented a series of significant global tariffs affecting major U.S. trading partners. On March 4, 2025, the U.S. imposed a 25% tariff on imports from Canada and Mexico.

Additionally, the administration has reinstated and expanded Section 232 tariffs, imposing a 25% duty on all steel and aluminum imports and revoking previous exemptions for Canada and Mexico. China is facing additional U.S. tariffs, up to 45%. These escalating trade measures have raised concerns about potential economic repercussions. Market analysts observe that the tariffs could increase American consumers' prices, particularly in sectors reliant on imported goods.

Thankfully, Special-T has strategically positioned its manufacturing operations in Gabrovo, Bulgaria. This decision, made over two decades ago, was influenced by logistical advantages and a commitment to supporting the local community. This vertical integration allows us to maintain control over costs and ensure an uninterrupted supply of materials, effectively mitigating the impact of global tariffs on our products for now.

Again, get those orders in now before there are any more surprises! We appreciate your support and patience during these crazy times!
